# How to use Website

1. The main display has a map with a description of how to use it.
- 2A. Once you click on places on the map you will see instagram posts of that place show up.
- 3A. When you select one of the instagram posts to keep you will be asked to start an account. or if you have account it will show up in your user account of photos
- 2B. On the user side of the site, you have the option of selecting a city and seeing insta posts and selecting them.
- 3B. You also get the option to plan a trip to that destination.
- 4B. You can see a lot of information and resources you might need to plan a trip there.
